PROFESSIONAL SUMMARY

B.Tech Information Technology student (AI/ML focus) with hands-on experience building and preparing data for AI models, including classification models and labeled datasets for computer vision tasks. Skilled in Python, data annotation, data quality review, and model evaluation, with strong communication and teamwork abilities suited for training, guiding, and evaluating AI systems and data-labeling teams. Seeking an AI Trainer role to apply technical and analytical skills to improve model accuracy, data quality, and training workflows.

CORE SKILLS

- AI/ML: Machine Learning Fundamentals, Model Training & Evaluation, Computer Vision, Real-Time Gesture Recognition, Data Labeling & Annotation, Dataset Preprocessing, Classification Models (Logistic Regression, Random Forest)
- Programming: Python, Java, C, C++
- Web Technologies: HTML, CSS, JavaScript, Flask
- Data: Data Analytics, Data Structures, Data Quality Review
- Other: Problem Solving, Effective Communication, Teamwork & Collaboration, Adaptability, Time Management

PROJECTS

AI-Based Heart Disease Prediction System

- Built a machine learning classification model (Logistic Regression and Random Forest) to predict heart disease risk from patient health data.
- Performed data cleaning, feature selection, and preprocessing on a structured health dataset to improve model input quality.
- Trained, tested, and evaluated model performance using accuracy, precision, and recall to identify the best-performing algorithm.

AI-Based Indian Sign Language Recognition

- Built a real-time Indian Sign Language recognition system using webcam/camera input to capture and classify hand gestures.
- Developed a Flask-based web application to serve the trained model, enabling live gesture detection through the browser interface.
- Implemented image capture and preprocessing (frame extraction, resizing, normalization) to feed camera input into the recognition model.

EDUCATION

B.Tech, Information Technology — Annai College of Engineering and Technology | 2023 - 2027 | GPA: 8.5/10

Class 12th, State Board | 2021 - 2022 | Score: 83.6%

Class 10th, State Board | 2019 - 2020 | Score: 84.8%

CERTIFICATIONS

- Web Development
- Java Programming
- Data Science
- Digital Marketing Strategy
- Artificial Intelligence/Data Science

LANGUAGES

English — Fluent | Tamil — Fluent
